Do you work remotely or not?

◉ Yes

○ No

What programing languages do you use?

C, C++, Protobuf

How many years of programming experience do you have?

4

Would you say that you typically are assigned an adequate amount of time to complete your projects?

○ Strongly Agree

◉ Agree

○ Netural

○ Disagree

○ Strongly Disagree

How often would you say you feel rushed when submitting code for production and or review?

○ Very Often

◉ Often

○ Sometimes

○ Not often

○ Never

How long would you say that the projects take if technical debt occurs?

3+ months

On which extra activities is the wasted time spent?

Reading through the code / trying to figure out what is going on

How aware are the developers and their managers about the wasted time due to Technical Debt?

They are adequately aware

Do you feel team meetings or meetings in general lead to wasting time and not accomplishing anything?

◉ Strongly Agree

○ Agree

○ Netural

○ Disagree

○ Strongly Disagree

How often are you say you are "forced" to use legacy code or outdated versions of applications because of hardware /company limitations?

Very often ▼

What productivity tools do you use to attempt to reduce technical debt?

How would/does your manage react if/when they saw a bug or potential security vulnerability in your code (even if minor)?

Would be corrected, and told of alternatives.

How often does the amount of technical debt affect your mental health?

Very often   ▼
